- Interactive or participatory projects
- Musical performances

Staff may select as many artists or artist teams as they see fit. The fee to be paid for each performance and the maximum amount the artist may request is \$350. Performances must be able to move about downtown, not activating one location but multiple locations throughout the night; cannot ask for payment from the audience; and cannot require power or infrastructure, musical performances must be acoustic.

PROJECT BACKGROUND

The goal of roving performances at Supersized First Thursday is to activate Downtown Boise providing an element of surprise and whimsy for downtown patrons while highlighting the breadth of Boise's artistic community. These projects will occur throughout downtown on corners, sidewalks, and unexpected locations allowing visitors to be surprised by an unanticipated performance or artistic moment, offering the opportunity to pause and enjoy while traversing between destinations.

First Thursday is a tenured promotion with dozens of downtown businesses offering later hours, new products, tastings, or specials to entice the event's thousands of visitors. In 2021, four months of First

Thursday were made to be 'Supersized' First Thursday with the addition of a robust slate of artistic, roving performances. The success of this expansion was astounding; therefore, we're excited to add one more month and bring this back for 2022. We continue to look to broaden the types of performances and anticipate selecting between three to five performers for each Supersized First Thursday.

PROJECT INFORMATION

Artists will apply for the opportunity to perform at Supersized First Thursday. Once selected, the artist or artist team will be provided a map of the areas of downtown they are to activate for their evening. Artists will be required to provide all tools, equipment, technology, knowledge, and labor necessary to successfully execute the proposed performance.

Staff may assist the artist to determine locations that suit the needs of the performance. Performances must allow the public realm to remain fully ADA accessible and provide a free experience to all members of the public. All projects will occur within the Downtown Boise footprint to encourage maximum impact and visibility. For specific projects it is at the discretion of DBA to potentially assign a location.

All projects could be documented by DBA staff and/or DBA contractors through both video and photo recording methods. DBA shall retain ownership of the video and photo documentation and may choose to promote or display the work publicly, at a later date. Artists shall retain ownership of the copyright of the works and may retain a copy of the documentation for their personal record.
