RE: History Programs Update

HISTORY PROGRAMS UPDATE

In November, history’s efforts focused on the Fettuccine Forum, Boise History: A Timeline brochure series, Fighting Bob series of children’s books, the history website, the oral history initiative, Planning and Development Services’s Design of Boise project, and planning for the American Association for State and Local History 2023 Annual Conference, which Boise will host September 6-9, 2023.

Fettuccine Forum
- Hybrid format (in-person and virtual) has enabled us to expand our reach while also providing an in-person programming experience. October’s and November’s forums were both well attended with 132 and 130 participants, respectively.
- The Forum returns on February 2, 2023 with “Out in Idaho: Queer Spaces beyond Boise,” feat. Prof. Lisa McClain (BSU) and Rachel Taylor

Design Boise Collaboration with PDS
- Arts & History is pleased to participate in PDS’s Design of Boise Project. On November 8, Director Stevens and the history programs manager delivered a presentation to the project team outlining significant historical developments in Boise’s history—especially those that impacted the landscape and built environment. This presentation was a jumping off point for discussion of the “interpretive framework” we will use to integrate history and culture into the project. The framework settled on was “People, Water, and Transportation.”
- The history programs manager will also produce a proposal further specifying how history and culture can contribute meaningfully to the Design of Boise project going forward.

Publications
- Boise History: A Timeline brochure series is in the designer’s hands for final review. Next steps: history staff and department leadership will strategize about marketing and distribution.
- Fighting Bob books: history met with outreach and education as well as the director to determine marketing and distribution strategy. The layouts are in designer’s hands for final edits, and printing is lined up with Hi-Tech Color.

**History Website**
- The history programs manager input the project into the Enterprise Portfolio system. Will update Wendy Ellestad on Discovery related work so it can be put before EMT for Starts Pipeline when advisable.
- History staff met with the director to determine a “launch strategy” that prioritizes content that advances the mayor’s initiative of Creating a City for Everyone.

**Oral History Initiative**
- History programs manager is undergoing training in oral history and assembling a list of resources for training purposes.
- Currently devising a project design that will organize our approach to oral history interviews with members of Boise’s Chinese community and their descendants.
  - This involves research of the subject matter (Chinese history in Boise and the West), narrator-specific research, question formulation, and scheduling and conducting interviews.

**AASLH 2023**
- American Association for State and Local History is coming to Boise in 2023. An estimated 900 history professionals will attend, providing an opportunity for A&H staff to demonstrate the power of history and the arts to define place and community.
- Arts & History will do this with the following panels, events, and tours:
  - Public Art & History 1.5 hour walking tour (focusing on “un-heard” histories)
  - Erma Hayman House & James Castle House half-day tour experience
  - History of Irrigation and Reclamation in Boise half-day tour
  - Idaho City/Mining half-day tour, in partnership with the Boise Basin Museum and/or the Idaho Museum of Mining & Geology (details TBD)
  - Arts & History Community Engagement roundtable (focusing on participatory research and archiving, and highlighting A&H’s collaborative, community-based approach to launching the Erma Hayman House)

RE: Archives Program Update

SUMMARY

The Archives Program is focused on foundational work, identifying potential donors, working with departments on identifying municipal records to preserve, and researching a large-scale reformatting project as well as representing A&H on the COOP committee.

Administrative:
- We have had a few issues at the archives facility this month including chemicals leaking over from a neighboring facility and making staff unwell. Risk and Safety visited the archives and with neighbor. It was determined that they were using chemicals that required specific ventilation which was not installed. They are working on fixing it.
- Badge readers were installed at the Kendall facility by the City’s security team.
- Researching the workflows and ordinances of municipal archives and records programs across the country.
- Working with Parks on survey of MK’s Boise Depot records in preparation for the Depot’s celebration.

Interdepartmental work:
- Completed work with the Mayor’s office and the Legal department to ensure the City is meeting contract obligations regarding the USS Boise collection.
- Wrapping up phase one of the city-wide COOP planning. Will be meeting with A&H staff to finalize essential functions.

Processing:
- MS049, Adrian Godfrey Collection is processed. Adrian Godfrey was a longtime Boisean resident who performed with the Boise Philharmonics and Boise Elks Gleeman. He wrote poetry and worked with and retired from Boise Cascade. The finding aid can be viewed at https://boiseartsandhistory.libraryhost.com/repositories/2/resources/26
MS093, Hitchcock O’Leary Family Papers has been processed. This collection consists of correspondence, ephemera, photographs, newspapers, newspaper clippings, family histories, postcards, and artifacts related to the Boise family from 1890 to 2010. The finding aid can be viewed at https://boiseartsandhistory.libraryhost.com/repositories/2/resources/58

Oral histories collected by A&H have been arranged and uploaded in our catalog. This will be an ongoing project which will include one intern who will start next year. Select audio and transcript files will also be uploaded at the end of the internship. The collection can be viewed at https://boiseartsandhistory.libraryhost.com/repositories/2/resources/119

Digitization:
- Digitizing select items from the Congregation Ahavath Beth Israel Collection

RE: Public Art Maintenance and Conservation

Program Updates

The job listing has been posted for Cultural Assets Program Manager and will close on December 30th.

Current Project Updates

CCDC Westside & River Myrtle Districts Maintenance Plans: Jennifer Stevens and Alaggio Laurino continue to develop a priority maintenance plan for all artwork in the respective CCDC districts. This plan has identified 28 public artworks and 107 traffic boxes in these districts. 4 artworks have pressing needs including “Bike Trio”, “Gentle Breeze”, “Botanica”, and the Rhodes Park murals. 32 traffic boxes have become faded enough to warrant rewrapping. Maintenance for all the artwork in the two districts until their respective sunset dates in FY26 and FY25 is still being calculated.

“Bike Trio,” Linen District/CCDC River Myrtle District: Removal, restoration, and new footings are still being planned for this artwork. The artists have been contacted for estimates and availability dates. Construction in this area is expected to run from July to December of 2023. The sculpture will be removed prior, then stored and repaired during this period of time. Because this sculpture stands in the CCDC River Myrtle District, it too is being included in their requested art maintenance plan. A better understanding of available funds would be preferred before plans are finalized.

“Gentle Breeze”, Cheri Buckner-Webb Park/CCDC Westside District: Ongoing maintenance and repairs to the east-facing swing continues. SRM Manufacturing LLC has been contracted to do extensive repairs to correct the misalignment of the swing. This repair is expected later this winter or in early spring. Signage on the back of the swings discouraging people from pushing them will be added as well. As previously mentioned, this sculpture stands in the CCDC Westside District and will be included in their requested art maintenance plan.
“Litharacnium”, BODO: Reinstallation dates remain stalled pending permit approval from ACHD. Due to freezing temperatures and possible snow, installation may be postponed until spring 2023. Contracts with SRM Manufacturing LLC and the artists have been extended until April.

“History in Motion”, Catalpa Park: Because ongoing corrosion is causing damage to the sculpture’s base, Alaggio Laurino and Ken Reeves of Parks & Rec are moving forward to replace current soil and mulch with pea gravel to promote proper drainage.

“Gem Block”, Main St between 10th St and 11th St: Renovations have continued at the site. It was agreed the developers would dispose of the sculptures on both sides of the street. So far, they have only removed those on the north side.

“Slip Stream” & “Reticulated Horizon”, Boise Airport: The TSA glass wall enclosure was reinstalled as well as the panels relevant to the two artworks. However, the new design calls for one less panel than the original wall. To remedy how this affects the artwork, the panels will be rearrange during the week of December 5th.

Traffic Box Collection: Periodic inspections and cleanings of the City’s 214 Traffic Boxes continues. Plans to replace all existing aluminum signage with vinyl are moving forward for Spring 2023. One traffic box, “State St. Apts.” by Katherine Bejenova Grimmet, was destroyed in a traffic accident. There are no current plans to file a claim or have it replaced.

RE: Update

YEAR IN REVIEW

It has been a year of great change in the City of Boise’s Arts & History Department. We have had three directors and many new staff members.

Since my arrival in September, I have focused on completing legacy projects and devising a vision for the Department’s future, as well as on hiring for vacant positions.

Work that fits into the overall mission of the city will drive the department’s future. Each project we design and implement needs to be able to explain how it helps to create a city for everyone or a clean city for everyone. Our content, programming, and public face will be aligned with those missions.

Please see presentation I gave to City Council on 11/29/22 for details on the year in review.
